

## Rainbow keyboard guide

- 1) Measure the exact distance (in cm) between the left hand edge of one key on your keyboard to the left hand edge of the next key the same, as shown in purple above (7 white keys).
- 2) If it is 16.4cm, you just need to print this guide out 100% scale and go to step 5.
- 3) Divide this number (in cm) by 0.164 to get the percentage you will need to scale when printing.
- 4) Print out this guide, scaling to the percentage that you obtained.
- 5) Cut out as shown
